2013-06-29 Didactically, a textbook of

criminology should start at the beginning. The learning process, also an emotional process, begins in criminology with the concepts, views, emotions, attitudes and ideas we have regarding crime and criminals. Exploration of these underlying factors is one of the aims of the present book. We can free our thinking only by being aware of the significance of our own feelings and thoughts about a phenomenon like crime. 'That is the basic problem confronting us. In scientific thinking implicit postulates as to the sensus communis, unless recognized and neutralized, grow into idols.' The fight against crime is one example of such an idol. Crimes and criminals exist only by virtue of reactions to certain forms of behavior. For this reason this book will begin by examining the reactions of society to crime. Criminology is primarily a science of others than offenders. In this sense I invert criminology. The history of criminology is not so much a history of offenders, 2 as a history of the reactions of those in power. The fight against crime is one example of such an idol Crimes and criminals exist only by virtue of reactions to certain forms of behavior For this reason this book will begin by examining the reactions of society to crime

2019 Race, Islam and Power: Ethnic and Religious Violence in Post-Suharto Indonesia is the result of Andreas Harsono's fifteen year project to document how race and religion have come to be increasingly prevalent within Indonesia's politics. From its westernmost island of Sabang to its

easternmost city of Merauke in West Papua, from Miangas Island in the north, near the Philippines border, to Ndana Island, close to the coast of Australia, Harsono reveals the particular cultural identities and localised political dynamics of this internally complex and riven nation. 2006 A book written by an Iraqi about Iraq and Iraqis to make them comprehensible. It explains the diversity and the lingering antiquity that shape the country in simple terms and through facts and anecdotes. It looks at the occupation, the chaos and lawlessness that followed and their effect on the lives of people and individuals. It also provides a look into the Triangle of Death - one of the most volatile

regions in the country - from the inside, showing some of the intricacies of tribal relations. But, above all, this book is about people. It aims to illustrate how ordinary people dealt with the traumatic situation, why civil war was so hard to ignite and why there is still hope. It may help the reader understand the failure to understand that led to failure. 2000-07-13 In this best-selling text BY social workers and FOR social workers, Charles Zastrow and Karen K. Kirst-Ashman, nationally prominent social work educators and authors, guide students in assessing and evaluating how individuals function within families, groups, organizations and communities during the key stages of the human life span. Zastrow, a member of the CSWE Commission on Accreditation, and Kirst-Ashman, a CSWE Board member, incorporate the most recent CSWE curriculum recommendations throughout. Using an effective, chronological life-span approach, the authors present separate chapters on biological, psychological, and social impacts at the different life-span stages. Chapter One introduces a practical Systems Impact Model that students can apply throughout the book to help them

understand individual behavior in macro, mezzo, and micro settings. Consistent with the curriculum policy statements of the CSWE, content on social work values and ethics, diversity, social and economic justice and populations-at-risk is also included. Zastrow and Kirst-Ashman make theories relevant to myriad practice settings by providing case examples, illustrations, photos, and exercises in every chapter. With thorough coverage of theories at all levels (micro, mezzo, macro) the book is comprehensive and balanced and provides students with a sound base on which to build assessment skills. 2015-05-01 Originally published in 1985, *One Chord Wonders* was the first full-length study of the glory years of British punk rock. The book argues that one of punk's most significant political achievements was to expose the operations of power in the British entertainment industries as they were

thrown into confusion by the sound and the fury of musicians and fans. Through a detailed examination of the conditions under which punk emerged and then declined, Dave Laing develops a view of the music as both complex and contradictory. Special attention is paid to the relationship between punk and the music industry of the late 1970s, in particular the political economy of the independent record companies through which much of punk was distributed. The rise of punk is also linked to the febrile political atmosphere of Britain in the mid-1970s. Using examples from a wide range of bands, individual chapters use the techniques of semiology to consider the radical approach to naming in punk (from Johnny Rotten to Poly Styrene), the instrumental and vocal sound of the music, and its visual images. Another section analyses the influence of British punk in Europe prior to the music's division into "real punk" and "post-punk" genres. The concluding chapter critically examines various theoretical explanations of the punk phenomenon, including the class origins of its protagonists and the influential view that punk represented the latest in a line of British youth "subcultures." There is also a chronology of the punk era, plus discographies and a bibliography. The book argues that one of punk's most significant political achievements was to expose the operations of power in the British entertainment industries as they were thrown into confusion by the sound and the fury of musicians and fans

2017-12-06 The Poem of Hashish (1821) by Charles Pierre Baudelaire was first published in 1850. This is the Aleister Crowley translation of 1895. Charles Baudelaire was an early precursor to the French symbolist movement of the late nineteenth century. The literary movement was a reaction to realism and placed a lot of emphasis on the power of dreams and the imagination as tools for communicating ideals through symbols. Synaesthesia was one the great tools of the symbolists and Baudelaire wrote of hashish: By graduations, external objects assume unique appearances in the endless combining and transfiguring of forms. Ideas are distorted; perceptions are confused. Sounds are clothed in colors and colors in music. Baudelaire utilised the dream as the symbolic ground of the drug experience. Charles Baudelaire (1821 - 1867) was a French poet who produced notable work as an essayist, art critic, and pioneering translator of Edgar Allan Poe. His

most famous work, *Les Fleurs du mal* (The Flowers of Evil), expresses the changing nature of beauty in modern, industrializing Paris during the 19th century. Baudelaire's highly original style of prose-poetry influenced a whole generation of poets including Paul Verlaine, Arthur Rimbaud and Stéphane Mallarmé among many others. He is credited with coining the term modernity to designate the fleeting, ephemeral experience of life in an urban metropolis, and the responsibility art has to capture that experience. 2010-04-13 The Fix is the most explosive story of sports corruption in a generation. Intriguing, riveting, and compelling, it tells

the story of an investigative journalist who sets out to examine the world of match-fixing in professional soccer. From the Introduction Understand how gambling fixers work to corrupt a soccer game and you will understand how they move into a basketball league, a cricket tournament, or a tennis match (all places, by the way, that criminal fixers have moved into). My views on soccer have changed. I still love the Saturday-morning game between amateurs: the camaraderie and the fresh smell of grass. But the professional game leaves me cold. I hope you will understand why after reading the book. I think you may never look at sport in the same way again.
