2013-05-10 Rowe studies a photograph by the Canadian photojournalist Jo-Anne McArthur in the context of her series We Animals and the portraits of several other photographers of captive animals. He looks at how we come to the window to stare at the creatures, and the ways we frame our ideas about them within the exposure and capture provided by the photograph and the zoo. In The Polar Bear in the Zoo Martin Rowe studies a photograph by the Canadian photojournalist Jo Anne McArthur in the context of her series We Animals and the portraits of several other photographers of captive animals

2013 Through the lens of Rowe's relationships with two Kenyan conservationists Wangari Maathai and Daphne Sheldrick this book surveys a number of prejudices that many of us who are fortunate to be born with the privileges attached to our skin color, sex, and access to resources don't like to deal with: race, misogyny, and the legacy of empire. By examining the two women's memoirs (Unbowed and Love, Life, and Elephants), both of which were launched following talks at the American Museum of Natural History in New York City, these metaphorical elephants in the room are combined with a study of the exploitation of actual elephants on the continent of Africa, and the iterations of memory that are disclosed or hidden in the writing of memoirs and the collecting of

bones for museums. By examining the two womens memoirs Unbowed and Love Life and Elephants both of which were launched following talks at the American Museum of Natural History in New York City these metaphorical elephants in the room are combined with

2006 In this lively book, Benedict R. O'G. Anderson explores the cultural and political contradictions that have arisen from two critical facts in Indonesian history: that while the Indonesian nation is young, the Indonesian nation is ancient originating in the early seventeenth-century Dutch conquests; and that contemporary politics are conducted in a new language. Bahasa Indonesia, by peoples (especially the Javanese) whose cultures are rooted in medieval times. Analyzing a spectrum of examples from classical poetry to public monuments and cartoons, Anderson deepens our understanding of the interaction between modern and traditional notions of power, the mediation of power by language, and the development of national consciousness. Language and Power, now republished as part of Equinox Publishing's Classic Indonesia series, brings together eight of Anderson's most influential essays over the past two decades and is essential reading for anyone studying the Indonesian country, people or language. Benedict Anderson is one of the world's leading authorities on Southeast Asian nationalism and particularly on Indonesia. He is Professor of International Studies and Director of the Modern Indonesia

Project at Cornell University, New York. His other works include *Imagined Communities: Reflections on the Origin and Spread of Nationalism* and *The Spectre of Comparisons: Nationalism, Southeast Asia, and the World*. 2018-08-21 An intellectual memoir by the author of the acclaimed *Imagined Communities* Born in China, Benedict Anderson spent his childhood in California and Ireland, was educated in England and finally found a home at Cornell University, where he immersed himself in the growing field of Southeast Asian studies. He was expelled from Suharto's Indonesia after revealing the military to be behind the attempted coup of 1965, an event which prompted reprisals that killed up to a million communists and their supporters. Banned from the country for thirty-five years, he continued his research in Thailand and the Philippines, producing a very fine study of the Filipino novelist and patriot José Rizal in *The Age of Globalization*. In *A Life Beyond Boundaries*, Anderson recounts a life spent open to the world. Here he reveals the joys of learning languages, the importance of fieldwork, the pleasures of translation, the influence of the New Left on global thinking, the satisfactions of teaching, and a love of

world literature. He discusses the ideas and inspirations behind his best-known work, *Imagined Communities* (1983), whose complexities changed the study of nationalism. Benedict Anderson died in Java in December 2015, soon after he had finished correcting the proofs of this book. The tributes that poured in from Asia alone suggest that his work will continue to inspire and stimulate minds young and old. 2013 When *The Sexual Politics of Meat: A Feminist-Vegetarian Critical Theory* by Carol J. Adams was published more than twenty years ago, it caused a immediate stir among writers and thinkers, feminists and animal

rights activists alike. Never before had the relationship between patriarchy and meat eating been drawn so clearly, the idea that there lies a strong connection between the consumption of women and animals so plainly asserted. But, as the 21 personal stories in this anthology show, the impact of this provocative text on women's lives continues to this day, and it is as diverse as it is revelatory. One writer attempts to reconcile her feminist-vegan beliefs with her Muslim upbringing; a second makes the connection between animal abuse and her own self-destructive tendencies. A new mother discusses the sexual politics of breastfeeding, while another pens a letter to her young son about all she wishes for him in the future. Many others recall how the book inspired them to start careers in the music business, animal advocacy, and food. No matter whether they first read it in college or later in life, whether they are in their late teens or early forties, these writers all credit *The Sexual Politics of Meat* in some way with the awakening of their identities as feminists, activists, and women. Even if you haven't read the original work, you're sure to be moved and inspired by these tales of growing up and, perhaps more important, waking up to the truths around us. This is true despite the fact that animals are an integral part of our lives in our language food families economy education science and recreation

2007-10 This is the story of a very free-spirited Russian girl, a dutiful and skeptical American reporter, and the improbable love they shared. It is also an intimate portrait of the curious country that sparked their love and made it impossible. The tragic tale is not merely a delightful read but also a classic of its kind. 2016-07-27 An original discussion and analysis of the meaning and scope of citizenship. The book examines the concept of citizenship in the light of normative ethical and political arguments as to the possible costs and benefits to political order, community, rights and participation of opting either for a cosmopolitan or a bounded

citizenship ideal. As well as putting the concept of cosmopolitan citizenship into question, this book raises fundamental issues as to the adequacy of the current conceptual resources of political and international theory. 2009-10-08 Gerard Delanty provides a comprehensive assessment of the idea of cosmopolitanism in social and political thought which links cosmopolitan theory with critical social theory. He argues that cosmopolitanism has a critical dimension which offers a solution to one of the weaknesses in the critical theory tradition: failure to respond to the challenges of globalization and intercultural

communication. Critical cosmopolitanism, he proposes, is an approach that is not only relevant to social scientific analysis but also normatively grounded in a critical attitude. Delanty's argument for a critical, sociologically oriented cosmopolitanism aims to avoid, on the one hand, purely normative conceptions of cosmopolitanism and, on the other, approaches that reduce cosmopolitanism to the empirical expression of diversity. He attempts to take cosmopolitan theory beyond the largely Western context with which it has generally been associated, claiming that cosmopolitan analysis must now take into account non-Western expressions of cosmopolitanism.
