2019-04-15 Democracy for Sale is an on-the-ground account of Indonesian

democracy, analyzing its election campaigns and behind-the-scenes machinations. Edward Aspinall and Ward Berenschot assess the informal networks and political strategies that shape access to power and privilege in the messy political environment of contemporary Indonesia. In post-Suharto Indonesian politics the exchange of patronage for political support is commonplace. Clientelism, argue the authors, saturates the political system, and in Democracy for Sale they reveal the everyday practices of vote buying, influence peddling, manipulating government programs, and skimming money from government projects. In doing so, Aspinall and Berenschot advance three major arguments. The first argument points toward the role of religion, kinship, and other identities in Indonesian clientelism. The second explains how and why Indonesia's distinctive system of free-wheeling clientelism came into being. And the third argument addresses variation in the patterns and intensity of clientelism. Through these arguments and with comparative leverage from political practices in India and Argentina, Democracy for Sale provides compelling evidence of the importance of informal networks and relationships rather than formal parties and institutions in contemporary Indonesia. Democracy for Sale is an on the ground account of Indonesian democracy analyzing its election campaigns and behind the scenes machinations

He explains why a few Muslims have considered Ibn al-Arabi the greatest heretic of Islam, while for many others he is Islam's greatest spiritual teacher. In the main body of the book, Chodkiewicz demonstrates that Ibn Arabi's writings are firmly grounded in the Koran. In doing this he also shows that Ibn Arabi's Koranic roots run far deeper than has heretofore been imagined. He explains that principles of Ibn Arabi's Koranic hermeneutics with unprecedented clarity, and in bringing out the primary importance of the Shaykh's magnum opus, *The Futuhat Makkiyya*, he solves a good number of riddles about the text that have puzzled modern readers. Chodkiewicz's work shows how, for Ibn Arabi, the initiatory voyage is a voyage in the divine word itself. 2011-11-06 Bowen asks not the usual question--how well are Muslims integrating in France?--but, rather, how do French Muslims think about Islam? In particular, Bowen examines how French Muslims are fashioning new Islamic institutions and developing new ways of reasoning and teaching. He looks at some of the quite distinct ways in which mosques have connected with broader social and political forces, how Islamic educational entrepreneurs have fashioned niches for new forms of schooling, and how major Islamic public actors have set out a specifically French approach to religious norms. --from publisher description.
