2014-12-25 The Ethiopic version provides
 a window into the state of the Greek Bible as
 it circulated in East Africa at the end of the
 fourth century. It is, therefore, an extremely
 important witness to the Bible's early
 transmission history, yet its testimony has
 typically been ignored or misunderstood by
 textual critics. This study examines the
 history of the book of Acts in Ethiopia and
 reconstructs its earliest attainable text,
 which is then assessed using the latest text-
 critical methods. It provides a solid base for
 interpreting the data of this key witness and
 lays the groundwork for future text-critical
 work in the Ethiopic and other early versions.

2013-10-22 Diagnostic Reference Index
 of Clinical Neurology aims to give the busy
 clinician a fast, easy-to-use guide to the core
 neurological literature published from 1980
 to 1986. This book is divided into two
 sections, key words and references. The
 keywords section consists of neuroscience
 terms and each main entry is followed by
 reference citation numbers and
 corresponding references. This index, unlike
 the usual computerized systems for
 literature retrieval, is structured around
 clinical problems and uses the approach and
 terminology of a practicing neurologist. The
 contents were sources from the full text of
 articles that were published in critical core of
 fourteen major international English-
 language journals in medicine and neurology.
 This book will be of interest to neurology
 students and to practicing clinical
 neurologists. 6873 chemotherapy CNS
