2013-09-21 Dictionary of South American
Trees provides a single-source reference for
botanists, biologists, ecologists, and
climatologists on the many native trees in
South America. The index lets readers find a
tree in four languages, by its common name,
or abbreviation, followed by taxonomy that
includes common uses for each part of the
tree. Using this information, scientists and
students can identify and classify plants,
their growth structure and environment, the
uses of their products, and alternative
options with similar characteristics. -
Complete coverage of all native South
American trees—the only single-source
reference for botanists, biologists, ecologists
and climatologists working in this diverse
and changing region - Includes taxonomy at
genera, species, sub-species, and varietal
levels, providing information from the most
basic level up and allowing readers to
identify their subjects using numerous
criteria - Indicates Latin, English, French, and
Spanish names as well as common names
and abbreviations, facilitating accurate and
efficient identification - Provides growth
information, climatology, ecology and uses
for the tree to provide insight into each tree

as well as for comparative purposes when
seeking similar tree-based resources 7088

2007-10-31 This important publication provides a comprehensive summary of data and information on the metabolism and chemical degradation of agrochemicals in soils, plants and animals. Part 1, Herbicides and Plant Growth Regulators, and Part 2, Insecticides and Fungicides, together provide a major bibliography, as each entry is fully referenced. Contents include metabolic products, pathways and mechanisms, together with useful details on physico-

chemical properties and mode of action. Both parts are organised by class of chemical for easy reference. There are separate entries for each pesticide, covering most commercially available chemicals in use today. In addition, an overview of the metabolism of each major class provides the reader with an informed summary of key similarities and significant differences between individual chemicals. Information is based primarily on literature from the past 40 years of research, together with some important, previously unpublished work provided by the agrochemical companies. Presented in a systematic, easy-to-read style, with extensive indexing to facilitate the rapid location of required information and the comparison of related compounds, Metabolic Pathways of Agrochemicals is an invaluable reference for chemists, biochemists and biologists working in the discovery, development and registration of agrochemicals, as well as scientists in related areas such as design and mode of action of pharmaceuticals. 7088 Uses AKH 7088 is used for post emergence weed control in soyabeans Mode of action The mode of action of AKH 7088 is light activated dis ruption of plasma membranes by lipid peroxidation and the breakdown of membrane
